Giuliana Rancic has learned the hard way that an off-thecuff joke can sometimes fall flat. A week after the show's Oscars special, the veteran E! reporter is still dealing with blowback after saying that starlet Zendaya Coleman's dreadlocked hair probably smelled like patchouli oil or "maybe weed," despite releasing a heartfelt public apology. "Giuliana feels terrible about the situation and certainly didn't mean to underscore any sort of racist ideas," says a source. On top of the public backlash, cohost **Kelly Osbourne** was quick to distance herself from the scandal. On Feb. 24, she told her Twitter

eresa Giudice shouldn't expect to see many familiar faces on The Real Housewives of New Jersey once she gets out of jail. According to an insider, producers are on the hunt to build a new cast for the hit reality show. "Everyone is on the chopping block - Teresa Aprea, Nicole Napolitano and even the Gorgas," reveals the source. "Casting directors are thinking about bringing back some of the original women, like Caroline Manzo and Jacqueline Laurita, but more than anything, they want new faces on board." The search for fresh blood hasn't been as easy as producers had hoped it would be: According to the insider, wealthy people are apprehensive about airing their dirty laundry after seeing what happened to the Giudices. "If they've ever made a shady deal or lied on their taxes, they don't want to attract attention," says the source. Folks have also smartened up and are refusing to be lured into the limelight. "They know they'll be terrorized on the show," adds the source.

"This is probably the first time Jana has really stuck up for herself," reveals a family insider.

# JANA ESCAPING THE DUGGARS!

Who says you need a ring on your finger to fly the coop? According to a source, the Duggars' eldest daughter, Jana, is done acting as an unpaid babysitter and wants to leave the family compound to pursue her own dreams — ones that do not involve marriage. "Jana just turned 25, so she knows she needs to get on with her education if she doesn't want to be stuck at her mom and dad's house in Arkansas forever," says a source. "She told her parents that she was looking at Christian colleges and would be applying soon." The announcement, however, did not sit well with patriarch Jim Bob, who the insider says promptly tried to talk her out of it. But with her sister Jill and sister-in-law Anna due to give birth soon, Jana is sticking to her guns before she gets stuck changing diapers!

Tom could gain more than 50 pounds for the role.

Even queens falter sometimes! Sources are reporting that Queen Bey (AKA Beyoncé) has started taking fertility drugs in order to give her daughter Blue Ivy, 3, a sibling. "She avoided the drugs as long as she could, but she finally broke down – and it's been as awful as she imagined," says an insider. "When she isn't on fertility drugs, she has amazing skin... so it's been a huge shock to suddenly be dealing with horrible breakouts." (A slew of recently leaked, pre-Photoshop pics of her notso-flawless complexion couldn't have helped!) Adds the source, "Her weight is going up and down, her moods are all over the place, and she cries at the littlest things. She's going through her own personal hell. She's just hoping the struggle will be worth it."

The strategy came about after Iggy saw pics of Nick leaving a nightclub on Jan. 9 with two women – in the vintage Chevy Impala Iggy had given him last year.

Amid harsh critiques about Kelly's weight, her formidable stepmother-in-law, country star **Reba**McEntire, insisted she has Kelly's back. "You know, Kelly's a big girl — she's always been able to defend herself and take up for herself," Reba said. "But if there's any slack needed to be taken up, I'll be there for her in a heartbeat."

#### **UPS AND DOWNS**

Kelly's weight has long been a source of critical attention. In 2002, when she became American Idol's inaugural winner - as well as a beloved media success story who would go on to win multiple Grammys and sell millions of records - Kelly was a smalltown Texan with charisma to spare and a refreshingly normal physique. As her career amped up, so did the scrutiny: After just a couple years in Hollywood, she was already defending her aversion to conforming to industry standards. "I'm

would ask, 'So what's it like being a big girl?' and I thought, 'Big? What?'... Luckily, I had a great mom and dad who helped me grow up feeling comfortable in my own skin."

Kelly hadn't always been so unfazed; she even admitted to suffering from bulimia in high school. Following *Idol*, her weight fluctuated wildly: Between 2004 and 2012, she seemed never to have quite the same figure. She was alternately invested in physical fitness — from rigorous kickboxing routines, to working with trainer Nora

declaring in 2009, "I'm never trying to lose weight... or gain it. I'm just being!" That same year, she insisted, "I love my body! I don't think artists are ever the ones who have the problem with their weight. It is other people." Later, she revealed her dieting philosophy. "Who wants to die on a diet?" she said. "I eat like I've always eaten."

But while she shrugged off the prospect of pregnancy pounds — "Everybody calls me fat all the time, so I can't wait to have a reason," she joked — she seemed acutely unnerved by her weight gain, with sources reporting that she did not want to leave her Nashville estate throughout most of her pregnancy. "Kelly says none of the

## OK! DRAMA "EVERYONE WANTS HER TO GET HE BEFORE IT -AN INSIDER HARD NIGHT Selena looked wasted when she left *Vanity* Fair's Feb. 22 Oscar party.

A YEAR AFTER SEEKING TREATMENT, SELENA GOMEZ IS ONCE AGAIN DRINKING, PARTYING AND TRYING TO HIDE HER POSTBREAKUP PAIN

t seems like Selena Gomez doesn't yet know what her heart wants - and the partying she's doing to compensate has her friends and family increasingly worried. The alarm bells grew even louder when Selena, 22, left the Vanity Fair post-Oscars party looking decidedly wobbly; her eyes were half shut, and she crouched on the pavement in her Louis Vuitton gown while she, Rosie Huntington-Whiteley and Rosie's boyfriend Jason Statham waited for their transportation to arrive.

Though Selena met up with her current beau and musical collaborator, **Zedd**, inside the party, sources say she's still not over Justin Bieber, who has been flaunting his outings with Hailey Baldwin and Kendall Jenner. "She's falling down the same emotional rabbit hole" she was in when she went to rehab in January 2014, says an insider.

"Everyone wants her to get help before it's too late."

#### **GOING IT ALONE**

The past year has been tough for Selena, whose on-and-off romance with Justin, 21, finally imploded last October. "It was a cycle of breaking up, making up, cheating, crying and jealousy," says a source. "Her friends kept warning her he was no good, but she never listened, and they got fed up." Though she's now posting cozy photos of herself with Zedd, 25, to show how happy she is, she's lost

Seeking solace, she seems to have amped up her partying and is looking noticeably puffier. "Selena has an addictive personality," an insider says, "and when she's feeling sad or confused, she's more likely to try to soothe herself with alcohol."

She is also being treated for the autoimmune disease lupus, her grandfather Ricardo Gomez has said, which complicates matters further. "It's just too much pressure, what she's going through," he said. "She won't take time for herself to relax and to eat well."

#### A DOWNWARD SPIRAL

After she did a two-week stint in rehab last year, citing exhaustion, Selena admitted that she'd "lost

sight of who I was" and paid too much attention to others' opinions. "They pressure me," she said. 2014. Insiders say a "'You gotta be sexy, you gotta be cute, you gotta be nice...'" Now those closest to her are worried that she's

"This should have been her year of healing," says a source. "But she spent most of it chasing after Justin and making excuses for him. Now she's acting out, and everyone fears she's relapsing. ## HOLLYWOOD

The couple's recent antics have resulted in some high-profile snubs from both Hollywood and the fashion world, sending them back to the start in their unending quest to be king and queen of the A-list prom. While Kim claimed they simply couldn't find a sitter for North that night, a source says they're becoming radioactive in powerful circles. "They think Hollywood revolves around them," the insider says, "but it's not seen as a good thing to have Kim and Kanye at your event. They're a distraction."

The Oscars night brush-off came on the heels of a disastrous New York Fashion Week, where Kim, 34, got the

cold shoulder from Vogue editor Anna Wintour when she brought 21-monthold North to two shows, where the toddler promptly melted down.

Wintour, who put Kim and Kanye on Vogue's April 2014 issue (and later admitted she did it for buzz, saying, "If we just put deeply tasteful people on the cover, it would be a rather boring magazine"), reportedly advised the couple to consider leaving North home in the future. It didn't help that

Kanye's first collection for Adidas was slammed by fashionistas, one of whom called it a "joke."

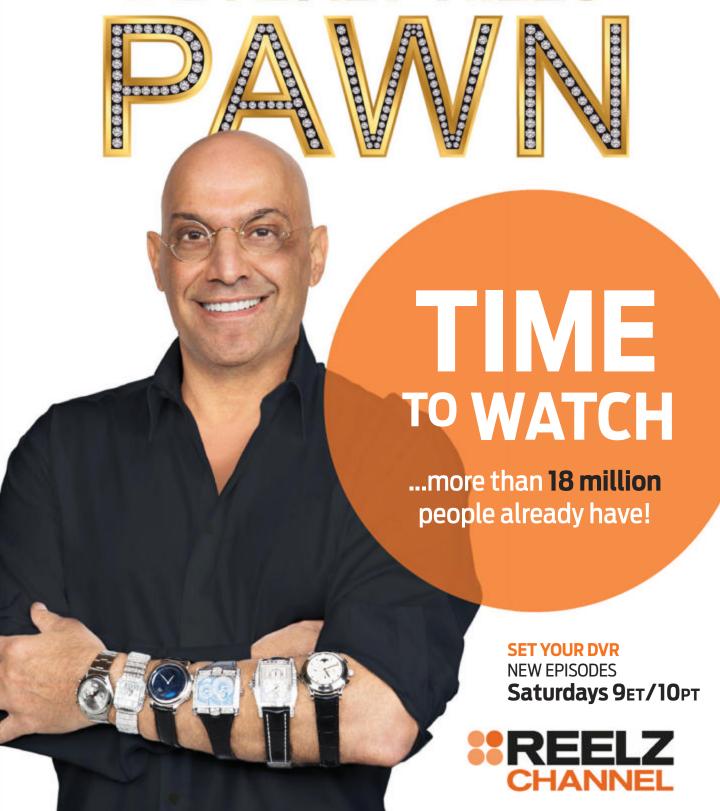

Insiders say the couple needs to "take some time out from obsessing about themselves" to turn their fortunes around with the A-list. Fat chance of that happening! OK!

- Is effective after waxing, shaving, and electric hair removal
- Has been dermatologist researched, tested, and approved

There are so many other uses for finipil!

## JENNIFER LOPEZ ALL THAT GLITTERS

J.Lo's sultry style shone at the Vanity Fair Oscars party, where she wore a white-fox fur stole by Helen Yarmak, Neil Lane diamonds and a Zuhair Murad see-through dress. The gown – beaded with 3,000,000 pearls, 8,700 Swarovski crystals, 6,000 crystal stones and 1,200,000 sequins – helped the American Idol judge's star shine a little (OK, a lot!) brighter. And since cleavage-revealing, plunging silhouettes have been her thing since 2009 (who can forget that green Versace dress), she pulled off the daring look with ease – keeping just enough flesh perfectly under wraps.

TROPICAL LIP HUES STOLE THE SHOW AT THIS YEAR'S OSCARS

never guess is an insomniac... who just stepped off a red-eye, no less. The 39-year-old California native, who's best known for her current gig with E! News, has earned her spot as a journalist on the red carpet. After studying at the University of Southern California, she started her career as a producer with the Associated Press, rising through the ranks to become global entertainment editor. With a résumé that includes countless A-list interviews, coverage of two White House inaugurations and a fierce commitment to charity, Alicia is a

#### Why is it so important for you to be a positive role model?

When my best friend [MTV television personality] **Diem Brown** passed away, I promised her I would carry on her advocacy work for cancer patients. I like to surround myself with people I can learn from. I've been blessed to have awesome mentors — women mentors, like **Katie Couric**. My plan is to pay it forward.

#### Who inspires you?

So many people; coworkers, my mom and even my glam squad... what they can do and how they can make me over.

#### How would you describe your look?

I like to mix high and low. You might see me in Target, carrying Chanel.

#### What was the moment when you knew you made it?

**Rafé** [**Totengco**] named a bag after me. It was a best-seller, so he created a whole line of Alicias. I own all of them.

#### What's important in a pair of jeans?

How about one thing that easily impresses you?

Thoughtfulness. If a guy makes a comment on a date about something we talked about on the phone, it can give me butterflies.

#### Did any of your exes reach out to you after the book came out?

Well, we don't name names. I'm sure everyone will have their opinions about who's who, but I won't go there.

#### What's the craziest story in the book?

One of our friends actually jumped out a bathroom window - that's how bad her date was!

#### Is there one dating mistake you find yourself making over and over again?

Combining the fact that I love to be in love and don't give up easily has definitely made me stay in some relationships longer than I should have.

#### What's one absolute no-no on a date?

If a guy is rude and disrespectful to you or to anyone you come in contact with, that's an immediate red flag and reason to call it a night.
